

# TxTag.org FAQ – How to create a user name

---

1. In the List of Messages box, find the “User Name is blank, click here to update” message, and click on the link.
2. **Create** a user name 6-20 characters long.
3. You may click **Check Availability** to see if the user name is available.
4. Click the **Save button** to confirm the user name for your account.
